Affordable Internet

Affordable internet access for students. Parents can enroll their school child and get \$50 credit on their monthly bill.

Check out the Emergency Broadband Benefit Program

As Michigan students return to school for a new year, access to affordable and reliable internet access is vital for their success. The Michigan Department of Education (MDE) applauds the efforts of all school personnel working to provide off-campus broadband solutions to students. [\(click here\)](#)

Welcome Back Wildcats!

Dear Salina Families,

On behalf of our entire Salina staff, we would like to welcome your family back to school. We are looking forward to this new school year, building upon our success, continuing to improve and always working to put students' first! We have overcome many challenges during the global pandemic! The staff and I appreciate your patience, support and perseverance as we work as a team to help all of our students learn the essential skills and standards of our curriculum. **We will continue to rise and work together to do what's best for student's safety, social and emotional wellbeing and academics.** With safety being a priority, the district will continue to require that all staff and students wear a mask while in a school building.

We hope that you all had an outstanding and relaxing summer! Many of our students were part of a historical summer program. Our summer school program was one of the largest and the first of its kind. Many of our Salina School teachers and staff were also part of it! They worked hard to meet the needs of our students.

We are very proud to **continue our schools' tradition of high expectations and excellence in education.** Despite the challenges we faced in the past, we plan to build upon our success from last school year. Our staff and students have become experts in technology integration, we have learned to be more flexible and adapt with all the changes that have come our way! More importantly, we overcome these challenges together! By working together as a school community, we will continue to have a positive impact in the lives of students attending our school.

We look forward to working with all of the students, their families, and community members as we unite together to ensure that our students are successful at Salina Intermediate during the 2021-22 school year. Please do not hesitate to contact me if you have any questions or concerns. You can reach me via phone at (313) 827-6600 or via email at ahmede@dearbornschools.org.

Most of our communication will be sent to parents via email, text and/or posted on the school website. Please subscribe and add your email to the school blog at <https://salina-int.dearbornschools.org>. Important information will be updated regularly. It is important to make sure that your contact phone number, email and information is up-to-date. We send frequent school and community related communication right to your phone and email.

Wishing you the very best school year,

Mrs. Eman Ahmed Ed.S -Principal

Breathing Exercises for Kids

Deep breathing helps get more oxygen into your bloodstream, opening up your capillaries. It has a physical effect on your body to help you calm down and lower stress. So deep breathing does make a big difference for kids.
