- Jan. 24: Half Day (All Students)
- Jan. 25: Half Day (Middle School Only)

Happy New Year
2022

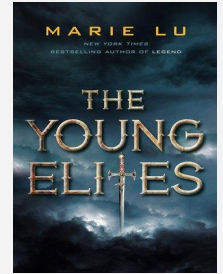

New Year Resolutions by Lamees Haidarah

A resolution is when someone makes a choice to do or not to do something. Whether it's a good habit or a bad one. It's a change you want to make in your life or others. It shouldn't be very hard to do, but challenging enough to make an impact. Some examples of resolutions are: getting more exercise, playing your favorite sport, spending quality time with your family, or spending less time on your phone. 2022 is going to be a great year, so what your new year's resolution?

Hala's Book Recs by Hala Ali

The Young Elites -Book Review
Author: Marie Lu
Genre: Fantasy Fiction

Adelina Amouteru is a blood fever survivor. Her country was destroyed by The Plague a decade ago. The majority of those who were infected died, while many of those who survived developed unusual marks. Adelina's black hair turned silver, her lashes turned pale, and all that's left of her left eye is a jagged scar. Her terrible father feels she is a malfetto, a monster who is destroying their family's reputation and risking their money. However, some of the fever's survivors are said to have more than scars—they're said to have unusual and tremendous abilities, and they've earned the label "Young Elites" because of the mystery surrounding their secret abilities. Teren Santoro is a king's servant. It is his responsibility as Leader of the Holy Axis to find and destroy the Young Elites before they ruin the nation. He thinks the Young Elites are deadly, powerful, and a serious threat, but Teren might have the most frightening secret of all! The Dagger Society has Enzo Valenciano as a member. Before the Holy Axis can find them, this hidden group of Young Elites searches out more like them. When the Daggers track down Adelina, though, they uncover someone with abilities they've never seen before. Adelina wishes to believe that Enzo is on her side and that Teren is the real villain. However, as each of these three fight in a unique and personal war, their lives will cross in unforeseen ways. They are enemies but they all agree on one thing: Adelina possesses powers that do not fit in this world and they must get rid of her. I would recommend this book to people who love reading about characters going through hardships. In this book, Adelina goes through many obstacles and hardships. Read this book to see if she overcomes her hardships or becomes her own worst enemy. This is a great example of both man versus man and man versus self. I highly recommend you give this book a read!
